# ONLAYS

OL-421 and OL-422 are groups of three onlays that can be chained together to any desired length. The OL-421 series come in left and right side assemblies while the OL-422 series are nondirectional, both can be purchased separately or as a group of three compatible parts. The COLM-130 is especially made as the backing to accommodate OL-421&422 onlays, (as well as other parts) and create a height adjustable assembly that is available in five different widths.

**TOP SECTION** (left side floral drop & butterfly)
